Not Sure	683	<b>35.6</b>	30.0 - 41.1

Data Source: Maine Integrated Youth Health Survey.

Based on students who reported doing something to purposely hurt themselves without wanting to die, such as cutting or burning themselves on purpose at least one time during the past 12 months.

Data for this variable was is not available by county or public health district.

All percentages are weighted to be more representative of the population of Maine students and to adjust for non-response.

95% CI = 95% Confidence Interval.

n/a=not available

\* Data unavailable because the question was included on only one module.

\*\* All racial categories are non-Hispanic except for "Hispanic."

^ Results are not reported because weighted data are not available due to low response rates.
